

# MARCO MENESES

Supply Chain & Demand Planning | Operations & Business Analytics

Piscataway, NJ | marco.a.meneses05@gmail.com | 732-351-9353 | [LinkedIn](#) | [Portfolio](#)

## PROFESSIONAL SUMMARY

Demand planning and operations analyst experienced in enterprise forecasting, exception management, and supplier portfolio ownership at scale. Managed a 40-brand, 9,245-SKU portfolio in RELEX, working the daily exception queue and escalating supply risk with supporting analysis. Skilled in variance and root cause analysis, order-proposal review, inventory positioning, fulfillment operations, and SOP development across distributed teams.

## CORE COMPETENCIES

Demand Forecasting • Exception Management • Replenishment & Order Proposals • Supplier Portfolio Management (40 brands, 9,245 SKUs) • Inventory Positioning • Lead Time Analysis • Fulfillment Operations • Variance & Root Cause Analysis • Scenario & Sensitivity Analysis • KPI Reporting • Data Reconciliation • Trend Analysis • SOP Development • Cross-Functional Escalation • RELEX • Excel (modeling, pivot tables, lookups) • PowerPoint • Claude Code • English (native), Spanish (fluent)

## EDUCATION

**Wilkes University, Jay S. Sidhu School of Business & Leadership**

Wilkes-Barre, PA

**B.B.A. Business Administration, Minor in Business Analytics**

Aug 2024 – May 2028

AACSB-Accredited | Cumulative GPA 3.00 | Dean's List, Fall 2024 (3.53)

**Coursework:** Managerial Economics, Data Analysis in Excel, Marketing; Financial Accounting & Decision Making, Principles of Economics II, Law and Business (in progress)

## PROFESSIONAL EXPERIENCE

**SupplyHouse.com**

Remote

**Demand Planning Intern**

Jun – Aug 2026

- **Supplier portfolio management** across a 40-brand, 9,245-SKU portfolio spanning A- and B-tier suppliers in the Plumbing category, reviewing weekly forecast proposals and product-level exceptions in RELEX
- **Daily exception queue ownership** across forecast and order-proposal code families, prioritizing by impact, resolving what fell in scope, and escalating supply risk to Demand Planning Team Leads with supporting data
- **Order proposal review** against trailing-order baselines using a four-order average methodology to separate genuine demand shifts from outliers before approving or revising quantities
- **Fulfillment center exposure** on an on-site assignment in Atlanta, seeing firsthand how forecast accuracy carries into slotting, AMR and ASRS robotics utilization, and fulfillment capacity
- **Cross-functional layout and automation exercise**, contributing the demand planning perspective, then building and presenting the team's proposal to operations leadership
- **Receipt planning and order approval strategy** with Team Leads, Senior Planners, and Category Management; authored an internal demand planning reference guide now used to onboard future interns

**Fox Pool Management**

Newton, PA

**Area Manager**

May – Aug 2025

- **Multi-site operations ownership** for 10 locations and 20+ staff, covering scheduling, inventory, logistics, and incident response through a full season
- **SOP authoring** for the operating procedures the sites ran on, holding service standards consistent across a distributed team without daily oversight
- **Single escalation point** between property managers, staff, and ownership, resolving conflicts before they reached clients

**MYLS AI**

Remote

**Growth Intern**

Oct – Dec 2025

- **Metrics tracking and weekly reporting** on engagement and conversion across Instagram, TikTok, X, and Reddit for an early-stage AI startup, reporting which formats produced measurable audience growth
- **Audience segmentation research** to identify target communities, then coordinating micro-influencer partnerships against those findings

## PROJECTS

**Specialized Business Project, Wilkes University (2024–2025):** Ran a \$1,000 startup fund end to end — built the P&L in Excel, forecast and managed inventory, sold out 75 units in under a month, donated all net profit to The Salvation Army.

**The Analyst's Edge, Founder & Editor (2026–Present):** Write and publish a weekly newsletter on AI in business, analytics, and operations for early-career professionals; 335 LinkedIn subscribers, roughly 2,000 impressions.

## PROFESSIONAL DEVELOPMENT

**Greenwood Project**

Remote

**FinTech Academy Scholar**

Jan 2026 – Present

- Selected for a competitive year-long program; weekly applied sessions covering data analytics, risk management, blockchain, and financial technology infrastructure

**Goldman Sachs (Forage)**

Virtual

**Operations & Risk Management Job Simulations**

Jan – Feb 2026

- Traced settlement and asset transfer breaks and coordinated resolution across Trading, Compliance, and Operations; separately built credit risk assessments and tested how variable changes moved total exposure

## CERTIFICATIONS & LEADERSHIP

**Certifications:** Introduction to AI, Google (Mar 2026) | Introduction to Claude Cowork, Anthropic (Mar 2026)

**Leadership:** NCAA Division III Wrestling (125 lbs) — compete while carrying 18 credits, 20+ hrs/week training and travel; mentor teammates. Future Business Leaders of America — business strategy and analytics case competitions.
