

MARCO MENESES

Business Analytics & FinTech | Forecasting, Reporting & Risk

Piscataway, NJ | marco.a.meneses05@gmail.com | 732-351-9353 | [LinkedIn](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Business analytics student experienced in turning enterprise system data into operating decisions. Analyzed weekly forecast proposals and exception reports across a 9,245-SKU portfolio in RELEX, tracing root causes in supplier-level data and quantifying variance before it moved inventory positions. Skilled in variance and exception analysis, data reconciliation, scenario and sensitivity analysis, KPI reporting, and Excel modeling, with credit and operational risk exposure through Goldman Sachs simulations.

CORE COMPETENCIES

Variance & Exception Analysis • Root Cause Analysis • Forecasting & Demand Modeling • Data Reconciliation • Scenario & Sensitivity Analysis • KPI Reporting • Trend Analysis • Credit & Operational Risk Assessment • Supply Chain Finance • Cost & Inventory Impact Analysis • Stakeholder Escalation • Process Documentation • Cross-Functional Coordination • Market Research • Excel (modeling, pivot tables, lookups) • RELEX • PowerPoint • Claude Code and LLM workflows • English (native), Spanish (fluent)

EDUCATION

Wilkes University, Jay S. Sidhu School of Business & Leadership

Wilkes-Barre, PA

B.B.A. Business Administration, Minor in Business Analytics

Aug 2024 – May 2028

AACSB-Accredited | Cumulative GPA 3.00 | Dean's List, Fall 2024 (3.53)

Coursework: Data Analysis in Excel, Managerial Economics, Introduction to Finance; Financial Accounting & Decision Making, Principles of Economics II, Law and Business (in progress)

PROFESSIONAL EXPERIENCE

SupplyHouse.com

Remote

Demand Planning Intern

Jun – Aug 2026

- **Forecast and exception analysis** across a 40-supplier portfolio of 9,245 SKUs in RELEX, an enterprise forecasting platform, quantifying variances before they moved inventory positions
- **Root cause investigation** of demand signal discrepancies using the platform's exception code families, tracing causes in supplier-level data and escalating supply risk to Team Leads with supporting analysis
- **Data reconciliation** of order proposals against trailing-order baselines, applying a four-order average methodology to separate real demand shifts from outliers
- **Decision support** with Team Leads and Senior Planners on receipt planning and order approval, tracing how one forecast decision carries through to inventory cost and fulfillment capacity
- **Operational data exposure** on an on-site assignment at the Atlanta fulfillment center, seeing how forecast accuracy carries into slotting, robotics utilization, and fulfillment capacity

MYLS AI

Remote

Growth Intern

Oct – Dec 2025

- **Metrics analysis across Instagram, TikTok, X, and Reddit** for an early-stage AI startup, reporting weekly to the founding team on which formats produced measurable growth
- **Audience segmentation research** to identify target communities, then coordinating micro-influencer partnerships against those findings

Fox Pool Management

Newton, PA

Area Manager

May – Aug 2025

- **Multi-site operations** for 10 sites and 20+ staff, owning scheduling, inventory, logistics, and incident response through a full season
- **Process documentation** of the operating procedures the sites ran on, which held service standards consistent without daily oversight
- **Single escalation point** between property managers, staff, and ownership

FINANCE & FINTECH DEVELOPMENT

Greenwood Project

Remote

FinTech Academy Scholar

Jan 2026 – Present

- Selected for a competitive year-long FinTech program; weekly applied sessions covering risk management, data analytics, blockchain, and financial technology infrastructure

Goldman Sachs (Forage)

Virtual

Operations & Risk Management Job Simulations

Jan – Feb 2026

- **Operations:** traced trade settlement and asset transfer breaks on high-net-worth accounts, then coordinated resolution across Trading, Compliance, and Operations under settlement deadlines and regulatory constraints
- **Risk Management:** built credit risk assessments from income, debt ratio, credit history, and liquidity inputs; tested how variable changes moved total exposure and wrote the mitigation recommendations

PROJECTS

The Analyst's Edge

Remote

Founder & Editor

2026 – Present

- **Weekly publication** on AI in finance, analytics, and operations for early-career professionals; 335 LinkedIn subscribers and roughly 2,000 impressions
- **Primary source research** weekly, translating industry reports into practical takeaways readers can apply at work

Specialized Business Project, Wilkes University (2024–2025): Ran a \$1,000 startup fund — built the P&L in Excel, priced and marketed the product, sold out 75 units in under a month, donated all net profit to The Salvation Army.

CERTIFICATIONS & LEADERSHIP

Certifications: Introduction to AI, Google (Mar 2026) | Introduction to Claude Cowork, Anthropic (Mar 2026) | Foundations of Digital

Marketing & E-commerce, Google (Sep 2026)

Leadership: NCAA Division III Wrestling (125 lbs) — compete while carrying 18 credits, 20+ hrs/week training and travel; mentor teammates.
Future Business Leaders of America — business strategy and analytics case competitions.
